

Waverley Pharma Announces Acquisition of two Generic Oncology Products Currently Marketed in the United Kingdom

WINNIPEG, June 25, 2018 /PRNewswire/ - Waverley Pharma Inc. ("Waverley Pharma" or the "Company") (TSXV:WAVE), an emerging Canadian pharmaceutical company, is pleased to announce that its wholly-owned subsidiary in Barbados, Waverley Pharma International Inc., has acquired two generic oncology products, temozolomide and capecitabine, currently marketed in the United Kingdom (UK), from Reliance Life Sciences Private Limited ("RLS"). The products were developed by RLS, and the binding contracts with the UK National Health Service for the supply of these products are being transferred to Waverley Pharma.

RLS will manufacture the two products for Waverley Pharma at its Medicines and Healthcare products Regulatory Agency approved manufacturing facility in Mumbai, India. Waverley Pharma expects to make modest profit margins on the products after paying transfer prices to RLS, and after distributor and analytical testing charges in the UK are accounted for.

"While this acquisition transforms Waverley Pharma into a revenue generating company, it more importantly positions us well for the launch of WAV-101 and 102, once they get approved in the European Union," stated the Company's President and CEO, Dr. George R. Thomas.

"Reliance Life Sciences is pleased to be able to contribute to strengthening the oncology product portfolio of Waverley Pharma with the addition of temozolomide and capecitabine, and, in the process, reinforce the relationship," stated Mr. K.V. Subramaniam, President of RLS.

Forward Looking Information: Statements contained in this press release that are not statements of historical fact, including, without limitation, statements containing the words "believes", "may", "plans", "will", "estimates", "continues", "anticipates", "intends", "expects" and similar expressions, may constitute "forward-looking information" within the meaning of applicable Canadian and U.S. federal securities laws (such forward-looking information and forward-looking statements are hereinafter collectively referred to as "forward-looking statements"). Forward-looking statements, include the receipt of binding contracts with the UK National Health Service, the eventual launch of WAV-101 and 102 in the European Union, and other regulatory filings, estimates, analysis and opinions of management of the Company made in light of its experience and its perception of trends, current conditions and expected developments, as well as other factors which the Company believes to be relevant and reasonable in the circumstances. Inherent in forward-looking statements are known and unknown risks, uncertainties and other factors beyond the Company's ability to predict or control that may cause the actual results, events or developments to be materially different from any future results, events or developments expressed or implied by such forward-looking statements, and as such, readers are cautioned not to place undue reliance on forward-looking statements. Such risk factors include, among others, the Company's potential product revenues, stage of development, additional capital requirements, risks associated with the completion and timing of clinical trials and obtaining regulatory approval to market the Company's products, the ability to protect its intellectual property, dependence upon collaborative partners, changes in government regulation or regulatory approval processes, and rapid technological change in the industry. Such statements are based on a number of assumptions which may prove to be incorrect, including, but not limited to, assumptions about: general business and economic conditions; the impact of changes in Canadian-US dollar and other foreign exchange rates on the Company's revenues, costs and results; the timing of the receipt of regulatory and governmental approvals for the Company's research and development projects; the availability of financing for the Company's commercial operations and/or research and development projects, or the availability of financing on reasonable terms; the uncertainties associated with the acceptance and demand for new products and market competition. The foregoing list of important factors and assumptions is not exhaustive. The Company undertakes no obligation to update publicly or otherwise revise any forward-looking statements or the foregoing list of factors, other than as may be required by applicable legislation. Additional discussion regarding the risks and uncertainties relating to the Company and its business can be found in the Company's other filings with the applicable Canadian securities regulatory authorities.
